

# SENTINEL GUIDE

For Windows

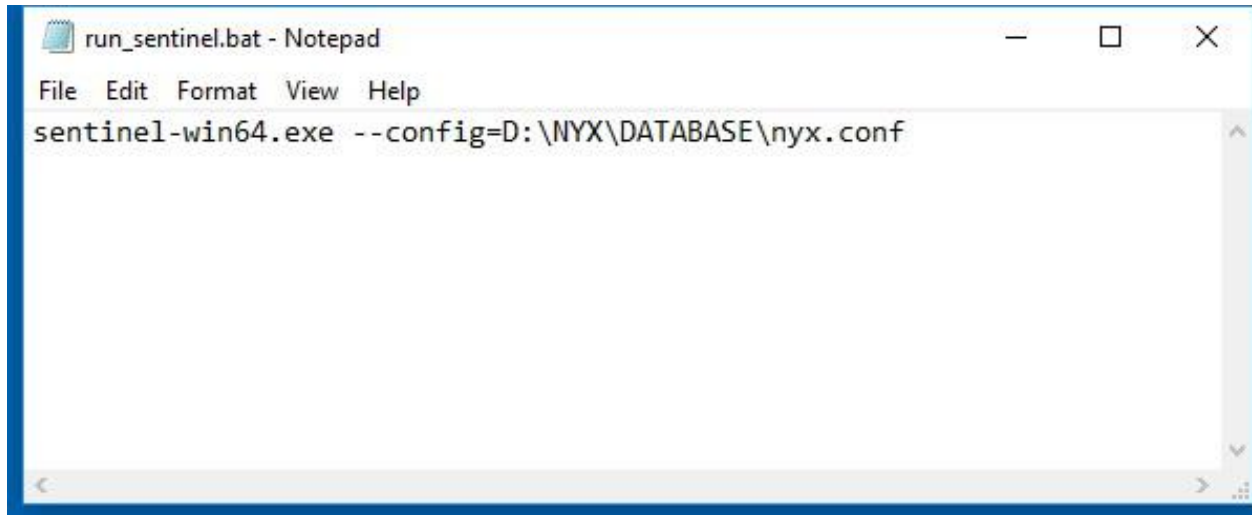

# Install Sentinel

- Download Sentinel from <https://github.com/nyxpay/sentinel/releases/download/v1.1.0/sentinel-win64.zip>
- Unpack it to D:\NYX and go to sentinel folder
- Right button click on “run\_sentinel.bat” and select “Edit”

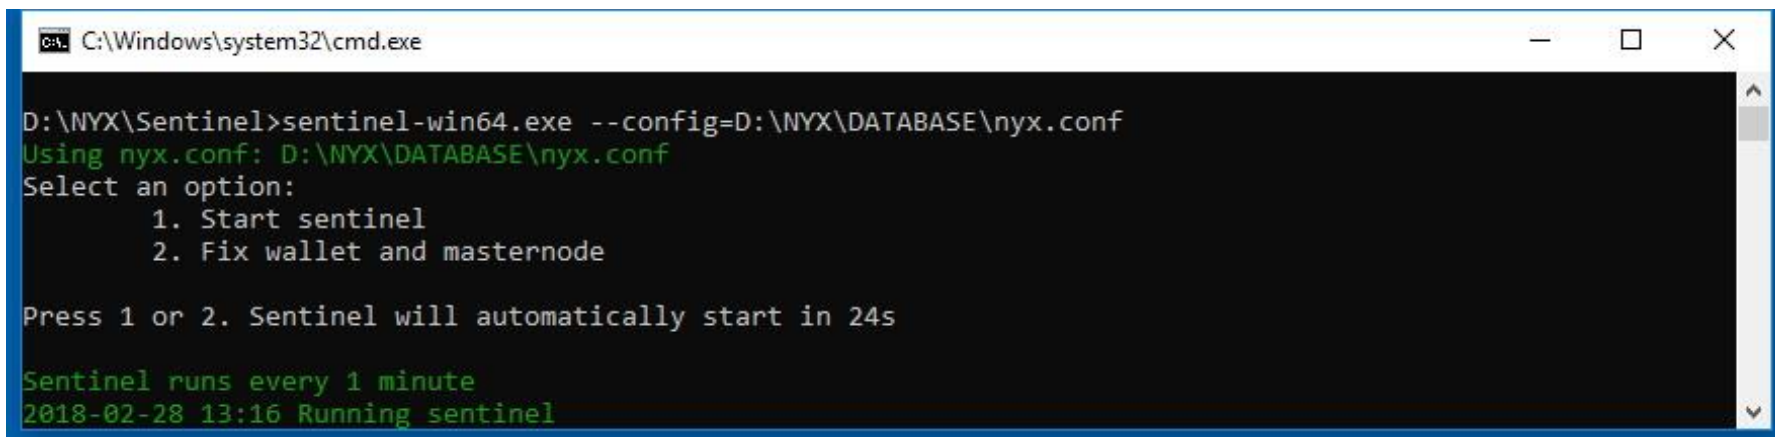

\* If you didn't change default installation folder for NYX wallet software then launch “sentinel-win64” file.

- d) On the opened window DELETE all text and paste the following blue text:  
`sentinel-win64.exe --config=D:\NYX\DATABASE\nyx.conf`

```
run_sentinel.bat - Notepad
File Edit Format View Help
sentinel-win64.exe --config=D:\NYX\DATABASE\nyx.conf
```

- e) Save changes and close file  
f) Double click “run\_sentinel.bat” and wait 30 seconds or press “1” on keyboard.

```
C:\Windows\system32\cmd.exe
D:\NYX\Sentinel>sentinel-win64.exe --config=D:\NYX\DATABASE\nyx.conf
Using nyx.conf: D:\NYX\DATABASE\nyx.conf
Select an option:
  1. Start sentinel
  2. Fix wallet and masternode
Press 1 or 2. Sentinel will automatically start in 24s
Sentinel runs every 1 minute
2018-02-28 13:16 Running sentinel
```

\* Green is ok! If it doesn't start, try to “Run as administrator”. Don't close sentinel window, just minimize it.

**CONGRATULATIONS! YOU DID IT!**

**GOOD LUCK!**
